

**I'm looking for 5 healers who want to go from burned out to recharged in the next 30 days.**

If that's you, keep reading.

# Here's What I Know About You

You're a healer, energy worker, or counselor.

Your clients leave sessions feeling amazing.

You leave feeling empty.

You absorb their pain. You give free sessions. You answer texts at midnight. You say yes to everything and have nothing left.

You know this isn't sustainable, but you don't know how to fix it.

# Here's What You Need

You don't need another boundary-setting workshop.

You don't need another self-care checklist.

You need energetic recalibration.

You need to clear the absorbed pain you've been carrying.

You need to reset your nervous system so it stops broadcasting "I'm available."

You need to restore your energetic reserves so you can actually hold space without losing yourself.

# The Quantum Shift Bundle

Four healing sessions designed specifically for healers who give everything to their clients and have nothing left for themselves.

## **Session 1: Healing the Healer**

Clear absorbed pain and reset your energetic boundaries.

## **Session 2: Navigating Ascension**

Stabilize your system during spiritual expansion.

## **Session 3: DNA Light Activation**

Activate your body's innate healing intelligence.

## **Session 4: Amping Up Your Inner Light**

Restore your energetic reserves.

# Your Turn on the Table

That's less than what you charge for a single client session.

And this time, you're the one on the table.

# This Is For You If:

You're tired of absorbing client pain.

You're tired of giving until you have nothing left.

You're tired of running on empty while everyone around you thrives.

You're ready to invest in your own healing so you can keep doing this work without burning out.

## *Are you in?*

I'm looking for 5 healers who are ready to recharge in the next 30 days.

If that's you, grab the Quantum Shift Bundle. Link is in the caption below.

The world needs all the healers it can get. That includes you. But you can't keep showing up if you have nothing left.

Let's fix that.
